This is to certify that M. Sai Sriram, 26/M working as a Technical lead at Wipro Ltd., that patient was recently involved in an accident. As a result of the injuries sustained, I have advised them to take bed rest for recovery. Patient will require a period of approximately 3 weeks to recuperate fully, after which they may resume regular activities, including work, depending on their recovery progress.

Kindly understand the situation of patient and give his recovery time to resume work and normal daily activities.
